← Login PIN Code Check

A PIN code was sent to phone number
+5586999229414

Resend PIN code
00:40

The user must insert the PIN code (6 numbers) he received via SMS into this field

If the user don't receive any SMS, he can ask to send the PIN code again after 1 minute

*After 3 resend PIN code attempts, the timer will reset to 2 min instead of 1 and when this 2 minutes is finished, a secret PIN code for offline login will appear.
This PIN code can be used to login but the declarations for this driver will show up **only if he had previously logged in with the regular PIN code at least once.***

Home page

Current valid and available declarations for this driver can be seen on this grid view

This three buttons are, respectively:

- Update declarations list
- Add a new declaration
- Logout

The user can click on any flag to see more details about each declaration

Clicking on the "Show more" will expand the grid to list more declarations

Date of the last time the declarations list was updated

*The declarations are updated regularly **once a day** on the background and also **everytime the app is opened** in this home page.*

Add new declaration page

A new declaration can be added manually by pasting a text received through SMS here

10:29

< Back Add new declaration

Paste the text you received through SMS here.

Add declaration

The text pattern to add a new declaration is the following:

`<declaration id>,<country>,<start date>,<end date>,<status>,<declaration security key>`

For example:

`0037eefcaef8-4a57-9aab-1ed6d34c9554,DK,2022-02-24,2022-08-22,SUBMITTED,5c49d43e-310f-4014-8160-0b2c8773d97e;`

This would add a new declaration for Denmark, valid from 24/02/2022 to 22/08/2022 with id 0037eefcaef8-4a57-9aab-1ed6d34c9554 and security key 5c49d43e-310f-4014-8160-0b2c8773d97e:

Declaration QR code page

By clicking on the QR code, it will expand to full screen

The full declaration details can be seen by clicking on this button

Declaration full details page

All the information available for this declaration can be found on this page

10:40
